ABOUT US

"A perfect blend of Celtic Folk, modern rock, and even a dash of classic rock thrown in for extra flavor. Fusing those sounds in an organic matter is something Corte di Lunas does flawlessly." [Folkrock.com](#)

"Original and different from the usual proposals, skilfully mixing tradition with the modern. (...) an absolutely promoted album." [Prograckjournal.com](#)

"Corte di Lunas quite artfully managed this difficult balancing act between rock and true archaic folk." [Rockmusicraider.com](#)

Corte di Lunas is a **folk-rock band** from Northern **Italy**. After 10 years of maturation and experience in Italy and Europe, the band has created a **unique chemistry** that blends folk and rock, a precious voice and polyphonic choirs, medieval and prog influences, and mixes all these elements with a theatrical touch that **brings the stories told alive**.

During their **live shows**, with their suggestive songs and their unique costumes, Corte di Lunas will take you through the mist of time and merge you in a fairy world full of magic.

In their latest album, "**Tales from the Brave Lands**" (2020), the band let the roots reach the surface: a journey through its homeland origins, researching sounds and traditions, giving voice to the spirit of their ancestors.

The band is currently facing a new compositional phase, and with their latest singles, "**Dance of Shadow and Light**" (2022) and "**Shine**" (2022), the band starts exploring the deepest and most intimate areas of the human nature.

Tales from the Brave Lands (2020)

Through eleven tracks, the band goes back to its roots to give voice to stories of strong women and miserable creatures, of heroes and peaceless monsters, of wild nature, rushing rivers, barren mountains and stormy seas. Tales of a Brave land.

Dance of Shadow and Light (2022)

With two singles released in 2022, the band challenges the codes of their genre and looks inside, at the world of lights and shadows and the battles that take place within us. The invitation is to recognize every personal nuance, even the darkest, as part of each of us, first welcoming it and then letting it take part of our proud and shining armour.
